WHAT IS THE TRANSPORT MANAGEMENT SYSTEM?

An End-to-End Operations Platform

- ✓ Replaces paper-based processes with structured digital operations
- ✓ Covers trips, drivers, vehicles, expenses, payroll & reporting
- ✓ Built specifically for Sri Lankan transport companies
- ✓ Web-based — accessible from any device, anytime
- ✓ Role-based access for Admin, Manager, Operator & Viewer

How it works

-  1 Record Trip
-  2 Assign Vehicle
-  3 Log Expenses
-  4 Process Payroll
-  5 View Reports

5,000+

Trips Recorded

200+

Drivers Managed

200+

Vehicles Tracked

Total Modules

COMPANY MANAGEMENT & MASTER FILES

Company Management

5 modules

COM

Company Profile

Central hub for all company settings & reference sequences

USR

Create User

Register users with role assignment & reference numbers

PRM

User Permissions

Fine-grained module-level access per user

PWD

Password Change

Secure self-service password management

EDU

Edit / Deactivate User

Update profiles & manage active status

Master Files

7 modules · foundational data registry

DRV

Driver Master File

Register drivers with licence, DOB & status tracking

VEH

Vehicle Master File

Full vehicle registry — plate, type, fuel type

CLN

Cleaner Master File

Manage cleaners linked to payroll & trips

CUS

Customer Master File

Customer database with contact details

ITM

Item Master File

Cargo / item type catalogue for trip entries

LOC

Location Master File

Pickup & delivery locations for route tracking

GET

General Expense Type

OPERATIONS

13 modules · The day-to-day transaction engine

TRP

Trip / Running Chart

Core trip record — vehicle, driver, route, revenue

TEX

Trip Expense Entry

Log toll, loading & trip-linked costs

FUL

Fuel Entry

Track fuel fills — litres, rate, cost, odometer

VEX

Vehicle Expense Entry

Repairs, maintenance, tyres & bodywork costs

ADV

Driver Advance

Cash advances auto-deducted in payroll

DED

Deduction

Salary deductions for drivers & cleaners

LON

Loan

Staff loans with repayment schedule tracking

PAY

Payment / Salary Disburse

Record salary payments to drivers & cleaners

DSS

Driver Salary Settlement

Monthly payroll — gross earnings, deductions, net pay

CSS

Cleaner Salary Settlement

Same structured payroll workflow for cleaners

CSF

Cash Flow

All business cash in/out with running balance

DCP

Driver-Cleaner Pairing

Assign cleaners to drivers for a defined period

GEX

General Expense Entry

REPORTS

16 modules · Core operational & financial reporting

MIS

Monthly Income Summary

Total monthly income across all trips

VIR

Vehicle Income Report

Income per vehicle over any period

DIR

Driver Income Report

Revenue attributed per driver

VPR

Vehicle Profitability

Revenue vs costs — profit per vehicle

TER

Trip Expense Report

All trip-level expenses by category

RCL

Running Chart Full Ledger

Complete trip-by-trip operational history

LVT

Lorry vs Trips Report

Fleet utilisation at a glance

FUR

Fuel Usage Report

Fuel consumption by vehicle & period

AFL

All Fuel List

Itemised list of every fuel entry

VER

Vehicle Expenses Report

Maintenance & repair costs per vehicle

GER

General Expenses Report

Overhead expenses by category

DSR

Driver Salary Summary

Salary totals across all drivers

DSL

Driver Salary List

Detailed salary breakdown per driver

CSL

Cleaner Salary List

Salary detail for all cleaners

CFP

Cash Flow Print

Printable cash flow statement

BSD

Business Summary Dashboard

At-a-glance KPI overview for management

EXECUTIVE REPORTS & FLEET REPORTS

Executive Reports

2 modules · Designed for management & board review

BPS

Business Performance Summary

Comprehensive KPIs — revenue, expenses, net profit, trip counts, vehicle & driver totals. Ideal for management presentations.

DBS

Daily Business Snapshot

One-page daily summary — trips completed, fuel consumed, expenses incurred & revenue generated. Perfect for morning briefings.

Fleet Reports

7 modules · Deep-dive fleet analytics

VPF

Vehicle Performance Report

Trips, revenue & expenses per vehicle

VUT

Vehicle Utilisation Report

Active days, idle days & trip frequency

MLR

Mileage Report

Total km driven per vehicle from odometer

FEF

Fuel Efficiency Report

KPL per vehicle — identify efficient vs wasteful

FCT

Fuel Cost Trend Report

Track rising/falling fuel spend over time

VEA

Vehicle Expense Analysis

Costs by category — Repair, Tyres, Maintenance

MEV

Most Expensive Vehicle

Rank vehicles by total expense — flag liabilities

STAFF REPORTS · FINANCIAL REPORTS · PAYROLL REPORTS

Revenue by cargo type — which goods generate most value

Analytics Reports (5)

TPV

Top Performing Vehicle

Rank vehicles by revenue or trips — recognise best assets

TPD

Top Performing Driver

Rank drivers by earnings, trip count or efficiency

LFE

Lowest Fuel Efficiency

Identify worst KPL vehicles — flag for servicing

HEV

Highest Expense Vehicle

Highlight most costly vehicles in maintenance & repairs

PPK

Profit per KM Report

Net profit per km per vehicle — ultimate efficiency metric

WHY CHOOSE ONES N ZEROS ERP?

Built for transport businesses. Proven in the field.

End-to-End Coverage

From trip recording to payroll settlement — every operational step in one system, nothing left out.

Real-Time Profitability

Instantly see which vehicles, drivers and routes are making money and which are costing you.

Role-Based Security

Granular access control — staff see only what they need. Admin, Manager, Operator & Viewer roles.

Works on Any Device

Web-based platform accessible from desktop, tablet or mobile — no software installation needed.

Automated Payroll

Advances, deductions and loans feed automatically into monthly salary settlement — zero manual calculation.

81 Modules, 11 Sections

The most comprehensive transport ERP for Sri Lankan operators — nothing else comes close in depth.
